Campaign for School Trustees Has Already Opened.

FIVE NAMES ANNOUNCED

They Have Many Indorsers - Nearly All the Old Members Have Opposition Various Interests Are Demanding Recognition-Awaiting President Ross' Return

The meeting of the board of school trustees set for yesterday afternoon, was postponed illness of Clerk Faulck. There will be no meeting of the board entil the 17th in-stant, when important matters will be

presented for consideration, it is expected that Supt. Powell, who is ow absent from the city, will at that time present with his recommendations for ling vacancies caused by resignations, and that the closing work, preparatory to he opening of the schools will be ready for

the action of the board.

As the time draws nearer for the appointments of trustees, the interest in the composition of the new board increases and the return of President Ross, of the board of Commissioners, will be the signal for an opening of the campaign. It will be brief, but the time will be fully occupied.

It is understood, of course, that the It is understood, of course, that the present members are on the eligible list, and that none would decline a reappointment, but with the exception of Major flarries and the two lady members, no one seems to be entirely without opposition.

The opposition does not arise so much from an objection to the individual as from a desire for a change, and the alleged necessity for reconstruction. At the same time there are elements that desire special representation, and the contest same time there are elements that desire special representation, and the contest for a new deal is based largely upon that plea. Political considerations will not be absent, for it has already been intimated that, as the board is at present made up exclusively from one party, there should be some retirements and substitutions on that score.

There is a demand from another quarter that the young men shall have a chance, from another that the German population shall be recognized, and again that organized labor shall have a member. With all these interests asking for consideration, it is fairly certain that Commissioner Ross, wh has special charge of school work, under the distribution of duties effected by the Board of Commissioners, will be called upon to decide some knotty points.

FIVE APPLICATIONS. There are but five formal applications of ile, notwithstanding the terms of the present members expire on the 13th instant. These are Dr. George H. Richardson, of No. 369 Eleventh street southwest; Rev. H. C. Robinson, pastor of the First Raptist Church, colored, in South Washington; C. W. Childs, M. D., also a resident of South Washington; Rev. S. G. Lamkins, pastor of the Salem Raptist Church, and Prof. Hugo Kuerschner, the visit of whose Hugo Kuerschner, the visit of whose friends to the District bolding was noted

Another loan of \$65 was made on September 4, 1894.

On these loans \$105 has been paid, the petitioner stated, and he still owes Campbell, \$65, which he is ready to pay. But Campbell refuses to receive less than \$213.85. The petitioner therefore asks that Campbell he restricted from disposing of the stock until a settlement is effected.

TROLLEY CASE TO GO ON Workingmen

Attorney Thomas, After Consulting Commissioners, Said So.

PROBABLE LINE OF DEFENSE

Will Claim That Schnept's Resignation Has Not Yet Been Accepted and, Therefore, Gray Is Not Manager. Newbold's Confession That They Have No Right to Obstruct Streets.

"I don-t know of any reason why the case should not go on to-morrow morning," said Attorney for the District S. T. Thomas yesterday afternoon to The Times. There is, therefore, a fighting chance that the case of private citizens against the trolley may reach the stage of being tried on its merits.
This stage will, however, undoubtedly be preceded by two anticipated moves of Mr. Ridout, the attorney for the company, in this city. He has not waived the right to move this morning for a continuance until the Schoepf case has been disposed of by the jourt of appeals. In case this move is unccessfully resisted by Acting Prosecuting Attorney Richardson, and the court considers it a successful resistance, the next obstacts n the way will come upon the evidence.

WHAT THE DEFENSE WILL BE. The public may anticipate that the defense will set up that Mr. Hamilton K. Gray is not he manager of the company. It is not charged in the information that he is such manager, but it is the fact that Mr. Gray as been acting as manager since the exit of Manager Schoepf from Washington. The defense will set up that Manager Schoepf's resignation has not been accepted yet. It will be a question for the court possibly to determine who is the manager or to determine who is the manager or whether the capacity in which Mr. Gray is acting is not one of such a nature as makes him amenable to the prosecution, whether or not Manager Schoepf's resignation has been accepted.

been accepted.

The foregoing will undoubtedly be the two important subterfuges of the defense. It appeared to the authorities at the District building that President Newbold had been in the city.

'I am not the least bit amused, not to say intertained."

"I am not the least bit amused, not to say intertained," said one of the officers to. The Times after reading President Newbold's essay on the present situation. "Two things especially tickle my sensibilities. One is that he characterizes the "Star" as "the recognized anti-trolley champion of the city's interests." Can anyhody tell sie why the trolley champion should go to the anti-trolley champion as guide, counsellor, confessor and historian." I confess that I give it up,

SIGNIFICANT CONFESSION SIGNIFICANT CONFESSION.

"Again President Newbold says: 'Of ourse, I recognize that the company has no right to maintain alleged obstructions no matter how much its business may be injured by their removal, but, efc. This is a probable confession of guilt.

is a probable confession of guilt.

"Now, to complete the confession, Pressedent Newbold says that he recognizes the reasonationess of the public outery." Why, if the courts and the Commissioners don't help Mr. Newbold out of this fix he has made officially a very indiscreet speech."

Attorney Thomas had occasion to call on the Commissioners yesterday on a matter not connected with the trolley, at which here was some talk about the situation. It was after this meeting that Mr. Thomas said that the case would go on to-day.

Commissioner Powell was quoted yesterday in a morning paper as adversely criticising The Times for instituting the present prosecution. The Euroden of the Interview appeared to be to show that The Times had transcended newspaper ethics and was guilty of other high crimes and misdemeanors.

WHAT MAJOR POWELL DID SAY. What Major Powell said was that the tase would be stronger if some citizen in-

tase would be strenger if some citizen in-terested in the removal, such as one living along the line of the road, had brought the company into court.
